

THE UNIVERSITY *of* EDINBURGH

---

# Open Access, Data management and emerging challenges to International Research

Edinburgh Open Research Conference 27th May 2022

Gavin McLachlan

Vice-Principal, Chief Information Officer and Librarian

The University of Edinburgh

---

# Open Access Publications

- Research Publications & Copyright Policy adopted in April 2022
- Asserts author's ownership of copyright in the first instance
- Supports authors to make their publications Open Access upstream of publisher-imposed embargo periods
- Allows easy compliance with Wellcome Trust, UKRI, EU and Plan S Policy

# Research Publications & Copyright Policy (2021)

**Research Publications & Copyright Policy (2021)**

---

**Purpose of Policy**  
 This will allow University of Edinburgh researchers to make their journal articles and conference proceedings available on an open access basis as required by research funders under Plan S <https://www.cocallion-s.org>

**Overview**  
 Immediate Open Access to research outputs, with rights retention, is the direction of travel major researcher funders are taking. On 1 January 2021 the Wellcome Trust introduced its new Open Access policy which requires its **graholders** to immediately make their research outputs open access upon publication and to be openly licensed with a Creative Commons attribution **license** (CC BY).  
 It is expected that the new UKRI open access policy, which is due to be announced shortly with a start date of 1 January 2022, will have similar elements of rights retention that allow their **graholders** to make their research outputs freely available by the official final publication date.  
 Furthermore, the recently announced Horizon Europe **programme**, which is world's largest multinational research and innovation **programme**, will require immediate open-access publishing for all recipients of Horizon Europe research grants. Authors must also retain intellectual-property rights for their papers.  
 The original Research Publications Policy was originally developed and implemented in January 2010, and **has been revised** in 2021 to bring it in line with research council strategies, policies, and practices.

**Scope: Mandatory Policy**  
 This policy applies to all staff on research contracts.

Contact Officer: Dominic Tate | Head of Library Research Support | [dominic.tate@ed.ac.uk](mailto:dominic.tate@ed.ac.uk)

Keywords: Open access, publication, copyright

- Confirms members of staff own the copyright to their scholarly works.
- Upon acceptance of publication each staff member grants the University of Edinburgh a CC BY licence to their publication
- Applies to all scholarly articles, authored or co-authored while the person is a staff member
- Deposit the AM in a digital repository, with article metadata available immediately upon deposit and the AM being made accessible to the public on the date of first online publication
- Opt out in case of difficulties
- Standard address convention (citations)
- Strongly encourages use of ORCID unique identifiers

# Open Research Data

- University of Edinburgh refreshed policy in January 2022
- Much stronger emphasis on Data Management Planning
- Data should be FAIR ( Findable, Accessible, Interoperable, Reusable)
- Greater emphasis on individual responsibility, backed up by high quality support services

# Overall Approach to Open Research

- We make a point of talking about “Open Research” rather than “Open Science” as we are a broad-based University and the principles can apply across disciplines.
- Inclusive approach working with various groups and organisations across the University. Co-ordination offered by Library Research Support, working with Research Strategy Group.
- Working to an Open Research Roadmap, developed with LERU (League of European Research Universities)

---

# New challenges (and opportunities) to International Open Research

- **The National Security and Investment Act (NSIA) (2021)** – Royal Assent granted.
- **National Security Bill** – proposed, in 2<sup>nd</sup> reading.
- **Foreign Interference Registration Scheme (proposed)** requiring UK universities to report foreign donations and partnerships valued over £50,000.
- **Scottish Government Data Strategy for Health and Social Care**
- **ICO: new management:** John Edwards - UK IC - 5 year appointment. Was IC from New Zealand

# International Data Transfers

- Transfer takes place when any personal data is visible in a non-UK region. (even if data never physically moved outside the UK). Exemption for University staff accessing from an international location.
- ICO's focus on the broader context of an international transfer beyond 'just' having the Model Clauses (or the new UK equivalent, the IDTA) in place.
- Should also be a full legal contract in place with any recipient of personal data.
- Strong security measures in international transfers even more important now, especially following the Schrems II decision.

# Information Security standards?

## Cyber Essentials vs ISO 27001 and others

# Making the Most of BREXIT?

Proposed new legislation includes:

- Bills of right to potentially replace the Human Rights Act
- Replacement of GDPR
- Public Order Bill
